

THURSDAY, JANUARY 6. 1743.

Extra from a private Letter.

Dusseldorf, Jan. 4.

THE Death of the Elector Palatine, of which we have just now received the News, has spread an universal Confection thro' this City and the adjacent Provinces. The Peasants, and, to say the Truth, the Inhabitants in general of the flat Country, have already begun to secure their best

and this Moment several Couriers have pass'd thro' this Place, from whom we learn, that the Inhabitants of the Duchy of Juliers are sending the best of their Effects to Cologne. Col. Bland, Quarter Master General of the Troops of Great Britain, pass'd by this Place in his Road to Brussels. We expect very speedily have in our Neighbourhood the English, Hanoverian and Hessian Forces, and that they will take their Quarters on both Sides the Rhine, from Keizerswerth to Cologne, or a little higher, and on both Sides the Meuse, from Maseick to Namur, and beyond it, but the greater part of the Troops will be quarter'd on the other Side the River.

They threaten us too with the Company of God knows what other foreign Troops. Amongst the rest, 15,000 Saxons, which are to be quarter'd in the Wickwicks of Berg, on the Frontiers of the County of Nassau. Time only can give us a Light into the Causes and Consequences of these Motions, concerning which a deal has been whisper'd for a Month past, but now they are publicly talk'd of as Events about which there is no Doubt.

Since the Arrival of all the before-mentioned Troops, the Saxons, except the Saxons, who will not quit their Country till the French have absolutely evacuated Silesia, a certain great Prince we are told has writ to his Imperial Majesty, to exhort him to compromise Matters with the Queen of Hungary before the march of so formidable an Army shall render Things less easy to be adjusted. This appears to us a very odd piece of News; but we are farther told, that this Prince will come over hither in the Spring, and that he will propose a general Congress of the Electors and States of the Empire, to settle if possible the Pretensions of all the contending Parties, and thereby restore Peace to the Empire.

Among some other surprizing Regulations, we are told, that the Queen of Spain is to have some kind of satisfaction given her in Italy, in return for which she is to yield up Florida to the English, and to procure a certain Territory on the Lower Rhine for the Queen of Hungary.

On the other Side, we are inform'd, that the Army of Veldt Marshal Seckendorff will very speedily be augmented to 40,000 Men, for which Purpose we are assured his Excellency has already received a very considerable Remittance from France. The prodigious Efforts made by that Court to support the Emperor, fully shew, how much she thinks her Interest concern'd in maintaining the Imperial Dignity as it is at present; and perhaps the Earnestness she shews in this, may be one great Reason why some other Powers should take such large Steps in favour of the Heirs of the House of Austria.

AMERICA.

Boston, Sept. 16. At a Meeting of the Inhabitants of this Town last Monday, at the Market-House lately built for Faneuil, Esq; and presented to the Town; a Resolution was made that the Thanks of the Town may be given to Peter Faneuil, Esq; for his noble and generous Benefaction of the Market-House erected by him on Dock-Square; and it was unanimously Voted, That the Town do with the utmost Gratitude receive and acknowledge his most generous and noble Benefaction; and that a committee consisting of twenty-one Gentlemen be appointed to wait on him in the Name of the Town, to shew him their most hearty Thanks for so bountiful a Gift, with their Prayers that this and other Expressions of the Bounty and Charity may be abundantly recommended with the divine Blessing.

In Testimony of the Town's Gratitude to the said Peter Faneuil, Esq; and to perpetuate his Memory, it was unanimously Voted, That the Hall over the Market-Place be named Faneuil-Hall, and at all Times hereafter be called and known by that Name; and also that a Picture of the said Peter Faneuil, Esq; be drawn in Length, and placed in the said Hall at the Expence of the Town.

Some Time last Month several French Men who arrived in this Town in the Absence of his Excellency, were warned by the Select Men to depart in ten Days, but neglected to do it; whereupon his Excellency at his Return sent them peremptory Order to depart out of the Province in five Days, and in the mean time to confine themselves to their Chambers, upon Pain of Imprisonment, which they accordingly observed.

Boston, Nov. 23. His Excellency the Governor having by his Letter to the Select Men of this Town communicated his Intention of making a Present to the Town of his Majesty's Picture, to be hung up in Faneuil-Hall; the Town, at their Meeting in said Hall on Friday last, unanimously voted, That the Town were deeply sensible of the great Honour his Excellency had therein done them, and the high Regard he thereby manifested to this Town; and ordered that the Hon. Thomas Cushing, Esq; Speaker of the Hon. House of Representatives, Moderator of said Town-Meeting, the Hon. Adam Winthrop, Ezekiel Lewis, and Samuel Waldo, Esqrs. the Select Men and Representatives of this Town, be a Committee to wait on his Excellency, and in the Name of the Town to return him their most humble Thanks for so valuable a Present, and to assure his Excellency, that it shall always be the Care and Endeavour of the Town to do what in them lies to make his Excellency's Government easy and happy. And on Monday last the said Gentlemen waited on his Excellency accordingly, who received them very kindly.

Boston, Sept. 30. We hear from Mortlake, That the latter End of last Week two Men being at work down a Well, which was about sixteen Feet deep, taking up the Stones and clearing of it, when on a sudden a great Quantity of Earth fell in upon them, and covered them both, one just above his Head, the other about a Foot and half over. Speedy Assistance coming, they endeavour'd first to get him up that was uppermost, by hoisting him out with the Windlass, but he was so wedg'd in that they could not without endangering his Limbs; they therefore clear'd away the Earth, and easily got him out, as they soon after did him that was undermost; who bending his Arm over his Nose and Mouth when the Earth came upon him, had a small Space to breathe in, which prevented his being suffocated. Proper Means being used, they both soon became well, and went about their Business again. What is yet farther remarkable as to their Preservation is, that by reason of the Earth's caving in, several large Stones that lay at the Mouth of the Well were left hanging part of the Way over it, and if but an Inch or two more had gone, they would, in all probability, fell in and kill'd them outright.

We hear from Norwich, That a Servant Boy upon some Dislike to his Master ran away, and going to a Tree with a Rope, attempted to hang himself; but as he was putting the Rope over his Head he fell off, and the Knot catching him fast under the Arm he was hung up by it, and so continued till his Master by searching found him, and took him down; but as he was bringing him home, the Boy took to his Heels, and has not since been heard of.

Philadelphia, Sept. 30. On Wednesday Night, Mr. Richard Philpot, of Great-Egg Harbour in West-New-Jersey, was murdered in his own House by two Men. It was supposed he had Money, but the Villains mis'd of it. One of them is since taken, and committed to Burlington Goal, but the other escap'd; his Name is Timothy Dennis, supposed to be about 30 or 40 Years old, of middle Stature, well set, full-faced, dark brown Hair. A Reward is offered by the Executors of the Deceased for bringing the aforesaid Murderer to Justice.

Boston, Oct. 7. We hear, that in the violent Storm we had Saturday Night was Se'nnight, a Sloop from the Eastward, loaded with Lumber, Isaac Orr Master, ran upon the Rocks off Cape Ann, and stranded; the Men saved themselves by climbing the Ropes, by which they held six or seven Hours, till they were discovered in the Morning from the Shoar, when Boats being sent to their Relief, they with much Difficulty and Hazard got to them, and took them in almost spent.

A Vessel is arriv'd at Marblehead, in six Weeks from Holland, who has brought over a considerable Number of Palatines, that are to settle at the Eastward.

Boston, Oct. 21. We hear that a Sloop laden with Sugars, Molasses, &c. belonging to this Town, on her Passage hither from Jamaica, was taken by a Spanish Privateer; the Captain of which Privateer having been lately taken by the English, and stripp'd by them of all that he had to a meer Trifle, he then made a Promise, that if ever he had the Fortune to take an English Vessel, he would use them with the utmost Humanity, which he accordingly did; for he lay out of his own Cabin to

oblige the English Master, and gave strict Orders that none of the Crew should be used ill; and at the Request of the English Master gave him his Mofes, with a sufficient Quantity of Rum, Bread, Meat, a Fire-place, Kettle, Water, Sails, and other Necessaries, with the Help of which they safely arrived at Providence, but with a tedious Passage of 13 Days very much fatigu'd, having been expos'd all that Time to the Heat of the Sun and Dews of the Night.

We hear that the whole Capture of the Prizer taken by Capt. Rouse, &c. which are condemn'd at Rhode-Island, together with one Third of the Jamaica Ship and her Cargo of Sugars that were adjudg'd for Salvage, will be worth 70 or 80,000 Pieces of Eight.

Boston, Oct. 25. By a Gentleman arriv'd from the Bay we are inform'd, that the Spaniards at the River Dew had fitted out 4 Pettiaugers, with 160 Men (some of them runaway Negroes who had gone from their Masters in the Bay) with an Intent to have kill'd and destroy'd the Inhabitants there. The Negroes were to shew them the Way to go to the several Houses; and accordingly they proceeded on their Expedition, and at the Mouth of the Bay found a large Craft, into which they got, and row'd to a Place where there was a Sloop, which they thought they could easily make themselves Master of, and accordingly made haste towards her; but, to their great Surprise, found it to be Capt. Davidson in a Rhode Island Privateer, who let them come near enough to him so as to have the Advantage of scouring their Hides, which he did, by firing in among them his Great Guns, Small Arms, &c. which kill'd many of them, and the Survivors were so horribly surprized that they immediately jump'd over-board, which did not wholly excuse them, for several were kill'd as they were swimming for the Shore; also took four or five Prisoners. It is supposed that not more than 20 saved themselves. Among those that were kill'd were three or four of the old Renegade Captains that us'd to harra's and plague our English Vessels that us'd that Trade; and it is to be hop'd that such a Rebuff will calm their Stomachs for the future.

Philadelphia, Oct. 7. Friday last was the Day of General Election throughout this Province and Territories, according to the Charter.

At this Election there was a greater Number of Votes, in all the Counties of this Province, than have appear'd for several Years past; and (except in Bucks County) the Majority in favour of the old Assembly was extraordinary. In Lancaster County the highest Number for the new Candidates was 362, the old had 1480; In Chester the highest for the new was 99, the old 961; In Philadelphia County the highest for the new was 336, the old 1790.

In this City, when the People of City and County were assembled in the Market-place, and had just begun the Choice of Inspectors, a Body of Sailors, supposed to be about 70 or 80, collected from several Ships in the Harbour, appeared at the Foot of Market-street, arm'd with Clubs, and huzzing march'd up in a tumultuous Manner towards the People. As they were mostly Strangers, and had no kind of Right to intermeddle with the Election, and some ill Consequence was apprehended if they should be suffer'd to mix, with their Clubs, among the Inhabitants, some of the Magistrates, and other Persons of Note, met them, and endeavour'd to prevail with them to return peaceably to their Ships, but without effect. For they fell on with their Clubs, and knocking down Magistrates, Constables, and all others who oppos'd them, fought their Way up to the Court-House, and clear'd the Place of Election, the People retiring into the Market-House and Second-Street in a kind of Amaze at such unexpected and unusual Treatment. After the Sailors had triumph'd a-while before the Court-House, they march'd off, and the People, without pursuing them, continu'd and finish'd their Election of Inspectors; which was no sooner done, but the Sailors returning more numerous and furious than at first, fell upon the People a second Time, and knock'd down all they came a-near; several were carried off for dead, and the Confusion and Terror was inexpressible. But the Inhabitants, losing at length all Patience, furnish'd themselves with Sticks from the neighbouring Woodpiles, and turn'd upon the Sailors, who immediately fled to their Ships, and hid themselves, from whence they were dragg'd out one by one, and before Night 50 of them were committed to Prison. A good Watch was kept that Night to prevent any new Tumult, and the City has ever since been quiet.

Boston, Nov. 2. On Tuesday last arrived here Lieutenant Thomas Watkins, by Land from Georgia; his Excellency General Oglethorpe having appointed him Courier for his Majesty's Service in North America, with an Express from his Excellency to our Governor; and is to return

return by Land with his Excellency's Answer, with all Expedition, to Frederica; the longest Journey ever known to be perform'd by one Man in so little a Time; it is computed to be 3250 Miles in the Whole. He began his Journey on the 19th of August, and expects to be at Frederica (if Health permit) on the 10th of December, which is 114 Days; and is near 29 Miles for every Day, and will be obliged to cross above 120 Ferries, and to stop with the several Governors for their Answers.

Boston, Nov. 12. By Capt. Brading from S. Carolina we have Advice, that two Men of War, viz. a Ship and Snow, with seven Transports having 500 Men on board, were arrived there from Jamaica; their Design is a Secret, but they have Orders to keep in Readiness for sailing at an Hour's Warning. Several Commanders of Vessels, and other Sailors, who have been taken by the Spaniards, (some of whom have been Prisoners among them two or three Years) have been at last ransomed, and arrived at Carolina, from whence two or three came in Capt. Brading to this Place, and the others design to come in the next Vessel.

Boston, Nov. 18. Last Tuesday died at Weston, Caleb Lyman, Esq; of this Town, after a long Illness. He was one of his Majesty's Justices of the Peace for the County of Suffolk, and Captain of one of the Companies of Militia in this Town.

And Yesterday in the Afternoon died here, very suddenly, aged about 85, David Jeffries, Esq; Father of the Hon. John Jeffries, Esq; He was formerly a considerable Merchant of this Town, and one of his Majesty's Justices of the Peace for the County of Suffolk.

HOME PORTS.

Liverpool, Jan. 2. Arrived the Phenix, —, from Virginia.

Falmouth, Jan. 1. Wind S. W. Since my last arrived the Ellis, Francis, from Penzance for London. Remains the Prince Frederick Packet, for Lisbon.

Cowes, Jan. 3. Wind W. S. W. Yesterday came down from Spithead, the Hannah, Tillier, a Tender, bound on a Cruise, and the Atalanta, Leigh, from London for Monferrat.

Deal, Jan. 4. Wind S. W. This Morning failed for the River the Serpent Bomb. Arrived the Duke of Cumberland, Eason, from Oporto, and the Plymouth Transport, Underwood, from Shoreham. Came down the Parnassus, Johnson, for Jamaica, and the Charles, Arnell, for Africa. Remain in the Downs, his Majesty's Ships Dover, Lynn, Liverpool, Princess Royal, Lyme, Fox, Deal-castle, Greyhound, and Peregrine, with the outward-bound Ships.

Graveland, Jan. 27. Pass'd by the Friends Delight, Luce, from Newfoundland, and the Elizabeth, Edwards, from —.

LONDON.

They write from Boston in New England, that in October last, one John Leke of Cohasset in West-New-Jersey, after Twelve Months Deliberation, made himself an Eunuch for the Kingdom of Heaven's Sake, having made such a Construction upon Matt. xix. 12; and that he was under Dr. Johnson's Hands, and in a fair Way of doing well.

On the 28th ult. was lost in Chale Bay, on the Back of the Isle of Wight, a Snow called the Princess Ann of New York, Burthen about 120 Tons, Roger French, Master, from Lisbon bound for London, with 57 Chests of Oranges and Lemons, which were all lost, as well as most part of the Snow, she being beat to pieces as soon as she came on shore. All the Men sav'd their Lives, except two Italian Sailors, who were drown'd.

The Angola, Lloyd, from Angola, and the Mary and Ann, Maddox, from Callabar, are both arrived at Barbados.

The Betsey, Derbyshire, from Liverpool, is arrived at Bonny.

Yesterday Morning, the Wind being excessive high, two Boats were overset in Chelsea Reach, by which Misfortune two Men and a Woman were drown'd.

Yesterday the Right Rev. the Lord Bishop of Norwich was pleased to institute the Rev. James Windham, M. A. to the Vicarage of Washbrooke, together with the Rectory of Copdock, both in the County of Suffolk and Diocese of Norwich.

The same Day, several Prisoners were remov'd from the Gatchouse to Newgate, in order to take their respective Trials at the Old Bailey, Sessions beginning there the 14th Instant.

This Day begins the General Quarter Sessions of the Peace for the City and Liberty of Westminster.

The Right Hon. the Lord Chancellor has appointed the first General Seal before Hillary Term to be held the 14th Instant at Lincoln's Inn Hall.

High Water this Day } Morning } Evening

7. An Historical View of the Court of Exchequer, and of the King's Revenues there, answered. By a late Learned Judge.

This Day is Published,
Mathematical Dissertation on a Variety
of Physical and Analytical Subjects. Containing among other Particulars, A Demonstration of the true Figure which the Earth or any Planet must acquire from the Attraction of the Surface of Bodies nearly Spherical. A General Investigation of the Meridional Parts, and the Lengths of several Degrees of the Meridian, according to the true Figure of the Earth. An Investigation of the Height of the Tides in the Ocean. A new Theory of Astronomical Refraction, with exact Tables deduced therefrom. A new and very exact Method for approximating the Roots of Equations in Numbers, that quintuples the Number of Places in each Operation. Several new Methods for the Summation of Series. Some new and very useful Improvements in the Inverse Method of Fluxions. The Whole in a General and Perspicuous Manner.

By THOMAS SIMPSON.

Printed for T. Woodward, at the Hall between the Two Temple-gates in Fleet street.

Where may be had, Philosophica Dissertatio de Gravitate. Per R. MATTHEW. The Second Edition of Barlow's Survey of the Tide.

Dr. BATEMAN's Original and ONLY True Wheateal and Retail WAREHOUSE at the Printing-Office, facing the South Door of Bow-Church, the Lower End of the Church-Yard, from Cheap-side, London.

THE Daily Success which has constantly attended the Taking Dr. BATEMAN's Pains in the Breast, Limbs, and Joints, has gained them a universal Character, that few Families care to be without them in their Houses. Besides the Dispensary already mentioned, there is no one Medicine, since the Discovery of the Art of Physick, that will give a Speedier Relief and Cure in Rheumatic Pains, Gout, Stone, Gravel, Cholick, Flux, Innumerable Instances might be given of the Happy Effects thereof, but we choose to refer to a Book, call'd, *of the Treatise of the Virtues of Dr. BATEMAN's Pains*, given gratis, at the Warehouse above said, where Shop-keepers, &c. in any City, Town, or Village, where these Drops are not already Sold, may be supplied, with an Allowance to sell again, by Directing or Sending to the PATENTEE,

BENJAMIN OKELL, Wm. and Chas. DICK.

The Surprising Encouragement, which by constant Success, these most Valuable Drops have, for upwards of Twenty Years, met with, not only in Great Britain and Ireland, but in all Parts of the West-Indies, and other Foreign Countries, has lately induced several mean and mercenary Pretenders to Counterfeit them; and by imitating our Seal, Bill of Directions, and Show-Boards, with our Method of Advertising, near as they can or dare to do, without making them the same, thereby impose their dangerous Compositions upon the honest and credulous Shop-keepers both in Town and Country, to the True and Genuine Sort.

The PATENTEE and Company therefore, in Gratitude for the universal good Reception they have so long met with, and for the Safety of those who for the future may be deluded by using the same, think themselves absolutely oblig'd to give this necessary Caution;

Which they earnestly request may be observed,

Sealed with the Seal of the PATENTEE, as in the Margin; and that the Names of the PATENTEE, Benjamin Okell, William and Chas. Dick, be on the Bill of Directions given with each Bottle, without which you may be assur'd of a notorious Counterfeit, and may be of the most dangerous Consequence.

N. B. That these Drops are also Sold Retail (in well Wholesale) at the Warehouse aforesaid, at One Shilling per Bottle, containing three Doses.

The only true Specifick Chymical LIQUOR For Dissolving and bringing away the Stone, whether in the Kidneys, Ureters or Bladder; and for curing the Strangury, and all Heat, Pain, Stiffness or Difficulty in making Water.

THE very first Dose of it gives perfect Ease in a Moment, even in the most racking Stone or GRAVEL, and at once entirely frees the Patient from the STRANGURY, and all Heat, Pain and Stiffness of Urine; it dilates the Ureters, makes them slippery, the Crumbings of large Stones, together with Sand and Gravel, may pass freely from the Reins, and be voided with Urine without Pain, effectually cleanses the Bladder, and all Urinary Passages from gritty Calculous Matter; heals all internal Excoriations or Soreness of the Uterus; directly takes off all Pain in the Back, and those Pains so called like the Cholick, and may be depended upon to dissolve large Stones, so as infallibly to cure that most miserable Distemper.

It gives such sudden and unspeakable Relief, that ever takes but one Dose of it, will be thoroughly cured of its surprising Efficacy, which many Hundreds have happily experienced to their infinite Satisfaction.

It is such an agreeable Diuretick and powerful Dissolvent, that it infallibly prevents the Stone in those who are troubled with Gravel only; and for the perfect Cure of either Stone or Gravel, and all Disorders of the Kidneys, Ureters, or Bladder, occasioned thereby, is the only true Specifick Remedy that can be surely and safely rely'd upon, as it gives instant Relief as soon as taken, (even when nothing else will) and infallibly accomplishes a perfect Cure without the least Trouble, or uneasiness to the Patient, agreeable to the Stomach, and pleasant to the Palate, agreeable to the Sign of the Crown, over-against the Sign of the Crown, near Cheap-side, London; at 3s. 6d. a Bottle, seal'd up with Printed Directions at large.
